

Customer Support

For over 15 years, the European Service Centre, a division of Sony DADC has been a reliable and forward-thinking partner, delivering Global Business Services.

Our B2C Customer Support team has gained experience in the home entertainment industry and media sector. We provide the agility, expertise, and cost-efficient solutions required to scale operations effectively, increase customer satisfaction, and continuously optimize and improve processes.

We take ownership of the B2C customer support transition from start to finish. We deliver multichannel and multilingual support with guaranteed scalability and flexibility.

We help you to deliver an exceptional B2C customer experience

Increase your business

We can manage your customer care operations efficiently, allowing you to focus on growing your core business.

Process excellence

We take care of continuous process optimization and harmonisation across territories.

Stable team of experts

Our university-educated professionals speak all major European languages with an average tenure of 6.5 years.

We are ready to cover your B2C customer needs

Digital subscriptions

1st level support team for the end customer online queries on behalf of our client, one of the largest Swiss media houses.

We handled all written inquiries from end customers like subscription cancellations, e-paper, newsletter or log-in issues, account synchronization, returns of the letters and reassignment to support level 2.

Hotline

Hotline solution with card processing capabilities under CCTV surveillance for one of the biggest home entertainment companies based in the United Kingdom.

Our specialists managed all B2C customer queries like order requests, orders tracking, shortages or return requests. We checked the payment statuses and worked with the end customer's bank details in a dedicated CCTV environment.

Talk to our experts.

European Service Centre

Our teams deliver tailored supply chain solutions designed to meet the unique demands of disc, home entertainment and electronics clients in the retail and e-commerce landscape. We also manage internal process support for Sony DADC.

By managing relationships with clients and more than 350 retail stores and chains, we have developed extensive expertise in overcoming complex supply chain challenges.

As part of our ongoing diversification strategy, we now offer customized B2C Customer support. We can also provide B2B Customer Service Operations, Finance Operations or Vendor Central Services.

Complex Supply Chain Solutions

Supply planning, Assembly, Customer Service Operations, Pick, Pack & Ship, Finance Operations

Sony DADC compliance

Quality, security and sustainability

Reliable and forward-thinking outsourcing partner

"The service is very much driven by finding solutions. Very efficient and extremely well organized. We are very satisfied with the service, communication, the way we work and at last: the staff is absolutely great."

Torgny Sjöö

Chief Operating Officer
Playground Music Scandinavia

"The atmosphere is consistently positive and constructive. Every year, we tackle new challenges, optimizing and improving every day. We have a very good collaboration with a team of nice individuals. Thank you."

Alice Talbert

Director, Sales Operations EMEA
Sony Interactive Entertainment

"We are happy with the collaboration, you pick up things immediately in case of issues and you are openly monitoring and steadily improving your processes."

Christina N.

Account Director
